Why bother with EU regulation?

Is the EU regulating itself into irrelevance?

Why bother regulating Europe’s AI industry when

Why bother regulating Europe’s AI industry when

1. It doesn’t exist

Why bother regulating Europe’s AI industry when

1. It doesn’t exist

2. It never will exist if we keep adding regulatory burden

EU changes goals

The US innovates

China replicates

The EU regulates

EU changes goals

EU changes goals

We can’t catch up with Google & Facebook.

EU changes goals

We can’t catch up with Google & Facebook.

Protect EU consumers & data.

EU changes goals

We can’t catch up with Google & Facebook.

Protect EU consumers & data.

We’ll regulate anyone entering our market.
