Cyber Resilience Act

Tommaso Bernabo, CNECT.H2

DG CONNECT, European Commission

CRA implementation milestones

2025

- Standardisation request
- Launch of CRA expert group
- MS coordination bodies
- FAQ & CRA website
- 2 IA/DA on time

2026

- First set of CRA guidelines
- Adoption of 36 standards
- Sufficient notified bodies
- ENISA Single Reporting Platform - Sept 2026
- DA on EUCC-CRA

2027

- More standards, guidance…
- Market surveillance
- Dec 2027: Full Application

European Commission

Reporting obligations

Since 11 September 2026, manufacturers report to the CSIRTs and ENISA via the CRA **single reporting platform**:

Actively exploited **vulnerabilities**

Severe **incidents** having an impact on the security of the product

CRA FAQs

- Publication of **comprehensive FAQ** & **Website** on CRA implementation

Dispelling false myths:

e.g.

- on scope (what type of software is covered);
- risk assessment (link between intended purpose and essential requirements, role of standards);
- vulnerability handling obligations (do I need to fix all vulnerabilities; how can I ensure a product is free from all vulnerabilities);
- reporting obligations (clarify only reporting applies in September, not vulnerability handling)
- Conformity of product types

European Commission

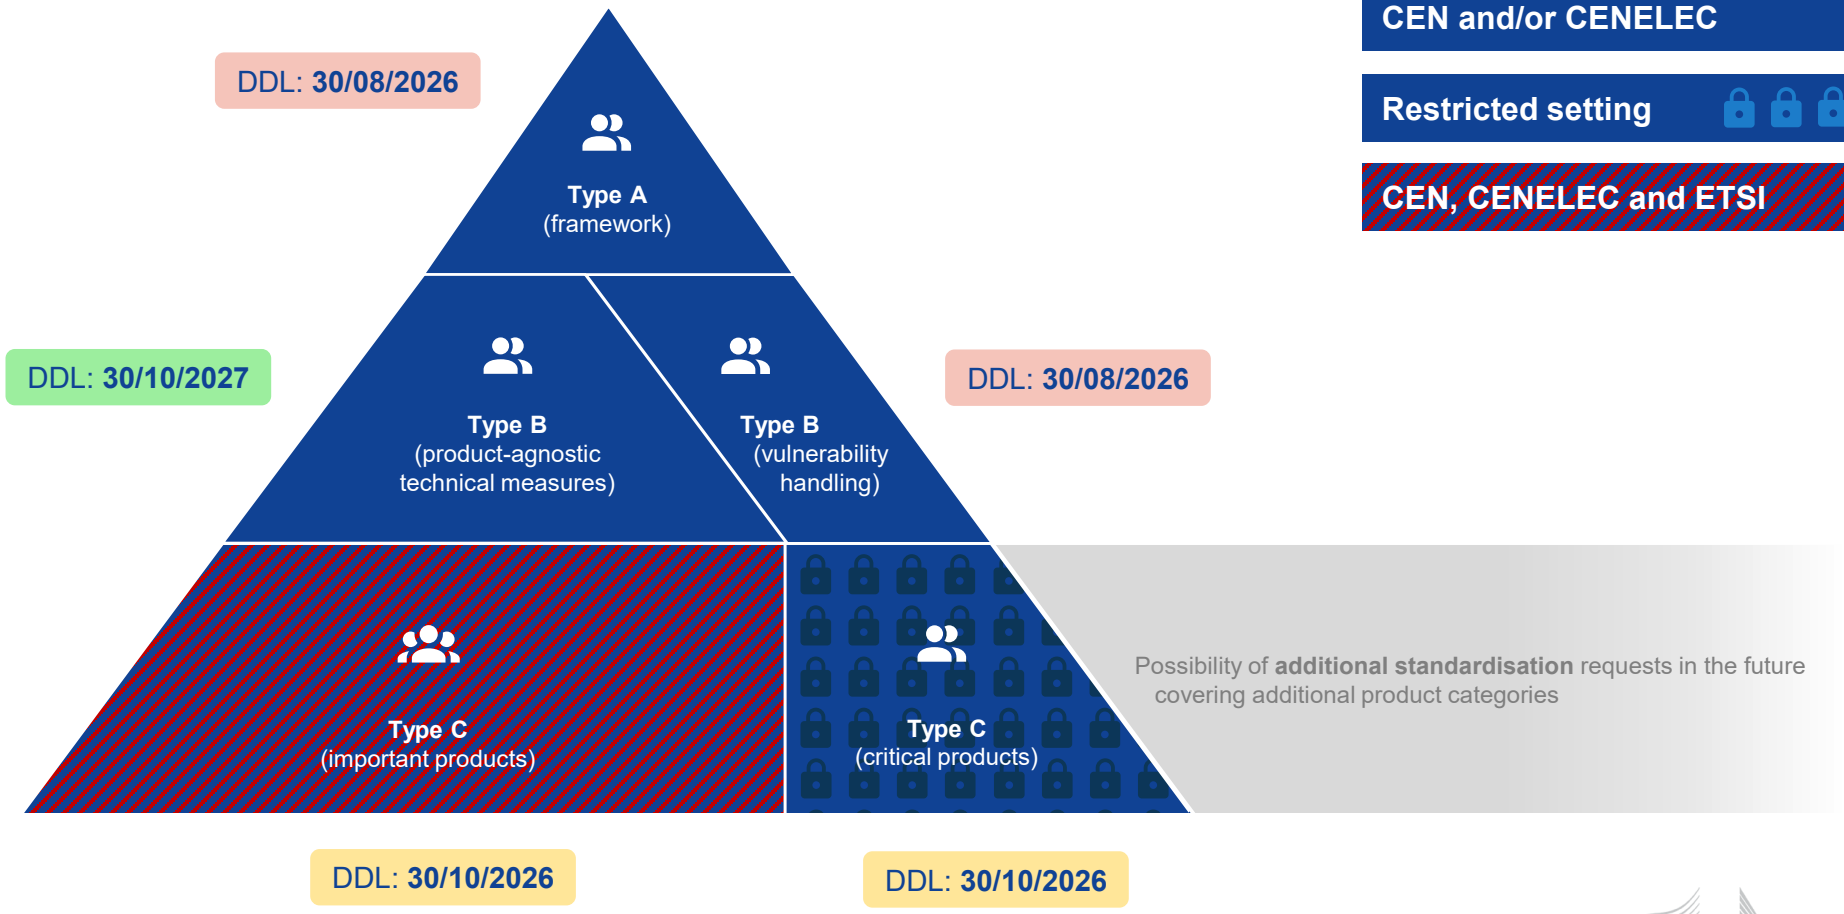

Legal Guidance

- 2026 : CRA legal interpretation
  - Key CRA concepts covered, incl. open source, remote data processing
  - Published on 27 July: Commission publishes new guidance to support timely Cyber Resilience Act implementation | Shaping Europe's digital future
- Guidance on interplay to follow
  - AI Act
  - DORA

ENISA's work

- ENISA Secure by Design and Default Playbook
- Technical advisories:
  - ENISA Technical Advisory for Secure Use of Package Managers
  - ENISA Technical Advisory for Software Bill of Materials
  - Draft ENISA Technical Advisory on Secure Update Mechanisms
  - Draft ENISA Technical Advisory on AI-assisted software development
  - Draft ENISA Technical Advisory on security.txt, CVD Policies and Security Advisories

CRA standardisation request in a nutshell

European Commission

MSME support actions

- CRA MSME support actions: awareness raising, guidance and tools to facilitate implementation, financial support measures
- Multi-stakeholder approach: Member States, Commission, ENISA
- Digital Europe Programme: SECURE Project with cascading funds & tooling
- ENISA's activities:
  - SME CRA Survey Report
  - SME Cyber Resilience Maturity Assessment Model

European Commission

Notification of CABs

- Goal: ensure consistent approach & level playing field
- Member States notifying competent authorities (notifying authorities and market surveillance authorities)
- By December 2026: Sufficient notified bodies in place
- Cooperation with Member States
- Explore synergies with RED DA & EUCC
- Engagement with European Accreditation
- Engagement with private CABs

Thank you.

European Commission
